

LORENZO FROLLINI

Sex: Male Date of Birth: 16/09/1991

PROFILE

I am 27 and I am the founder, CEO and CTO of *flywallet*, an innovative fintech startup. We are developing a new system for digital payments and identity, based on an affordable wearable device with the aim of replacing the traditional wallet, keys, password and ID cards.

Undergrad in Aerospace Engineering and a tech enthusiast.

My journey in startup world started in end of 2016, when I was one of the finalists of iBank Challenge by ABI Lab with the concept of *flywallet*. From that moment my life was changed and I started to work on my project while continuing my studies. Now I am fully committed to my startup, my goal is to face up the new challenges of Digital world.

EXPERIENCE

February 2017 - Present - Founder, CEO and CTO of *flywallet*, incorporated in December 2018.

April 2019 - I received the *ACEA Special Prize* at the pitch competition of *Rome Startup Week*, where I was with *flywallet*.

December 2018 - I was among the three finalist of *Fintech & Insurtech Prize of Digital Innovation Observatories of Milan Polytechnic*, I was one of the speaker of the Observatory's annual conference where I presented my startup to the most expert of banks and financial institutions.

October 2018 - I was selected at *Maker Faire Rome 6th edition* where we showed to public our project.

August 2018 - My startup was one 50 selected between 100 others in Italy for the startup competition at the festival of innovation *Heroes meet in Maratea*.

January 2018 - I designed the prototypes of the payment and identification system, I also started the requirements definition and cost estimation of the project.

September 2017 - I have started the collaboration with *ICCREA Banca S.p.a.* for the development of the project of *flywallet*.

July 2017 - I was selected for the Master of Science in Space Engineering at **University of Surrey** in England and even at **Cranfield University**, but I withdrew both the offers to fully dedicate myself to *flywallet*.

December 2016 - I was one of the finalist of **iBank Challenge** organized by **ABI (Association of Italian Banks)** with the idea *flywallet*, a new kind of innovative payment and person identification system.

EDUCATION

In course - Bachelor Degree in Aerospace Engineering
From "La Sapienza" Università di Roma, Faculty of Civil and Industrial Engineering.

VOLUNTEERING

Since 2016 - Active member of **British Interplanetary Society (B.I.S.)**, the world's most ancient organization whom promote space exploration.

Since 2016 - Member of **B.E.S.T. (Board of European Students of Technology)**, an international student university association spread over all Europe.
